

September 5, 2009.

Dear Parent,

While in a public school boys take part in a variety of activities and imbibe the best from the all round educational approach of the school, academics and class room teaching play a very important role in this process. The staff discussed the matter of boys' attitude towards academics and felt the immediate necessity to tighten up matters further.

We take this opportunity to inform you that we have planned a set of serious consequences to curb the tendencies of students to be late to class and with submission of work and for absenteeism. We request you to support our stand in your communication to your ward.

Thanking you,

Yours sincerely,

JAYANT TENG SHE
